RV Wall Panels

Description:

Composite Box RV wall panels are crafted with fiberglass reinforced plastic (FRP), ideal for RVs, camping trailers, and caravans. Available in thicknesses of 10-140mm, with a maximum length of 11.8m and width of 3m, they offer lightweight (2.5kg/m²), waterproof, and insulated solutions. Customizable in RAL colors, they suit Europe, Southeast Asia, and more.

Advantages:

- Lightweight, reduces RV mass by 15%, saves fuel.
- Superior insulation, waterproof, corrosion-resistant.
- Durable (15-year lifespan), low maintenance.
- Aesthetic finishes (faux wood/stone), enhances RV appeal.

Features:

- Core: XPS, PET, PU, PVC foam, PP honeycomb, marine plywood.
- Skin: Fiberglass sheets, impact-resistant.
- Processing: CNC machining, hot pressing, surface textures (glossy/matte).
- Customizable sizes, colors, embedded structures.

Common Parameters

			
Customer Satisfaction	Quality Assurance	Advanced Production Line	Customization
Insisting on high quality products and servers, centered around customer experience	We strictly control every production process to bring reliable quality assurance to our customers	The world’ s top production line ensures product precision and efficiency	We provide 100% customization, making orders less difficult
