Box Truck Side Door

Description:

Composite Box ’ s Fiberglass Composite Swing Door and Fiberglass Composite Roll-Up Door enhance box trucks, refrigerated trucks, and trailers. Crafted from high-performance fiberglass composites, these lightweight doors offer superior thermal and acoustic insulation. Available in customizable sizes and core materials like PU, XPS, or plywood, they ensure durability and impact resistance. Complete kits include hinges, locks, and seals, making installation seamless for logistics and transport applications.

Features:

Composite Box ’ s Fiberglass Composite Swing Door and Fiberglass Composite Roll-Up Door use fiberglass composites with PU or XPS cores. Lightweight, they offer insulation and soundproofing. Customizable sizes and durable hinges ensure reliability. Kits with seals and handles simplify installation for trucks and trailers.

Advantages:

The Fiberglass Composite Swing Door and Fiberglass Composite Roll-Up Door resist impact and weather. Lightweight for efficiency, they provide insulation. Customizable and low-maintenance, they ensure reliability for trucks and trailers with easy-install kits.
