FIBERGLASS PLYWOOD BOX TRUCK

Description:

Composite Box' s Fiberglass Plywood Box Truck Body offers a lightweight, high-strength solution for dry freight transport. Featuring durable FRP skins and a robust plywood core, it reduces weight by over 45% compared to steel, enhancing fuel efficiency. Ideal for logistics and rental firms, it provides customizable designs for versatile cargo needs.

Features:

- Dimensions: 10 ft to 30 ft (11.8 m) long, up to 3.3 m wide.
- Materials: FRP skin, marine plywood core, 10-30 mm thick.
- Kits: 20+ options, including doors, flooring, E-track.
- Customization: CKD/SKD delivery, color options.

Kits:

Advantages:

This truck body cuts weight by over 45%, boosting fuel efficiency while maintaining durability with corrosion-resistant fiberglass and waterproof plywood. Its smooth, impact-resistant surface ensures easy maintenance and a long lifespan. Offering superior bending resistance, it outperforms steel in strength-to-weight ratio. Fully customizable with over 20 kits, it adapts to logistics, construction, and cargo transport, delivering cost-effective performance.

Common Parameters

 <p>Customer Satisfaction</p> <p>Insisting on high quality products and services, centered around customer experience</p>	 <p>Quality Assurance</p> <p>We strictly control every production process to bring reliable quality assurance to our customers</p>	 <p>Advanced Production Line</p> <p>The world' s top production line ensures product precision and efficiency</p>	 <p>Customization</p> <p>We provide 100% customization, making orders less difficult</p>
