Reefer Truck & trailer Floor

Description:

Composite Box offers durable Reefer Truck & Trailer Floors for cold chain logistics, using aluminum and FRP. Designed for semi-trailers, small trailers, and vans, these floors feature Anti-slip Diamond, Rectangular Duct, and T-shaped designs. Customizable for various sizes, they ensure efficient cooling, drainage, and stability, ideal for pharmaceuticals, food delivery, and dry vans.

Features:

- Anti-slip Diamond Aluminum for enhanced cargo stability.
- Rectangular Duct for improved air circulation.
- T-shaped design for optimized cooling efficiency.
- FRP Flooring with a plywood core for added impact resistance.
- Enhanced with E-tracks, subframes, doors, and tail lifts for versatility.
- Corrosion-resistant materials for long-term durability.

Advantages:

- Anti-slip Diamond Aluminum ensures cargo stability during transport.
- Rectangular Duct design enhances air circulation for freshness.
- T-shaped floor optimizes cooling efficiency for perishables.
- FRP Flooring with plywood core provides strong impact resistance.
- Corrosion-resistant materials extend durability in harsh conditions.
- Customizable with E-tracks, subframes, and doors for versatility.

Common Parameters
