Caravan Composite Panels

Description:

Composite Box’ s caravan composite panels feature a lightweight, multi-layer design with fiberglass or CFRT skins and foam or PP honeycomb cores. Offering superior strength and insulation, they’ re ideal for RVs. CNC machining ensures precise cutouts, while aluminum profiles simplify CKD assembly. Customizable shapes, glossy finishes, and seamless designs enhance aesthetics and efficiency, reducing environmental impact with recyclable materials for caravan manufacturers.

Features:

Our caravan composite panels are lightweight, boosting fuel efficiency and ease of handling. Durable and UV-resistant, they require minimal maintenance. Superior thermal insulation ensures comfort in extreme climates, while fire-resistant, recyclable materials support sustainability. The sleek, rivet-free design elevates aesthetics. With 20+ years of expertise, we deliver customizable, high-performance panels for caravans, reducing environmental impact and meeting diverse needs.

Advantages:

Our panels feature fiberglass or CFRT skins with foam or PP honeycomb cores for strength and lightweight performance. Customizable up to 11.8 m x 3.2 m, with 8 – 110 mm thickness, they support unique shapes. CNC machining offers precise cutouts, and aluminum profiles ease assembly. UV-resistant, thermally insulating, and recyclable, the glossy, rivet-free finish ensures durability and style in RAL colors for caravans.

Common Parameters

 Customer Satisfaction	 Quality Assurance	 Advanced Production Line	 Customization
Insisting on high quality products and servers, centered around customer experience	We strictly control every production process to bring reliable quality assurance to our customers	The world’ s top production line ensures product precision and efficiency	We provide 100% customization, making orders less difficult
