## 14 foot Refrigerated Truck Body

Description:

The 14-foot refrigerated truck body, measuring 4.2 meters, is crafted from XPS foam board insulation with fiberglass sheet skin. Ideal for urban cold chain distribution, it supports refrigeration and freezing with a load capacity of 8,000 pounds. Fully customizable, it ensures high-efficiency thermal insulation for food, pharmaceuticals, and more.

Features:

This 14-foot truck body offers a rivet-free fiberglass design, anti-slip aluminum flooring, and compatibility with all chassis. It maintains temperatures from -18 ° C to 7 ° C, with over 20 customization options, including multi-temperature zones, ensuring excellent sealing and aesthetic appeal.

Advantages:

With superior XPS foam insulation, this lightweight truck body enhances fuel efficiency and load capacity. Its rivet-free, high-sealing design improves aesthetics and reduces thermal conductivity. Offering 100% customization and easy-to-clean surfaces, it ensures reliable cold chain transport with a modern, durable finish.

Common Parameters

			
Customer Satisfaction	Quality Assurance	Advanced Production Line	Customization
Insisting on high quality products and servers, centered around customer experience	We strictly control every production process to bring reliable quality assurance to our customers	The world’ s top production line ensures product precision and efficiency	We provide 100% customization, making orders less difficult
