# 14 Pallet Refrigerated Truck Body 12 Tons

## Description:

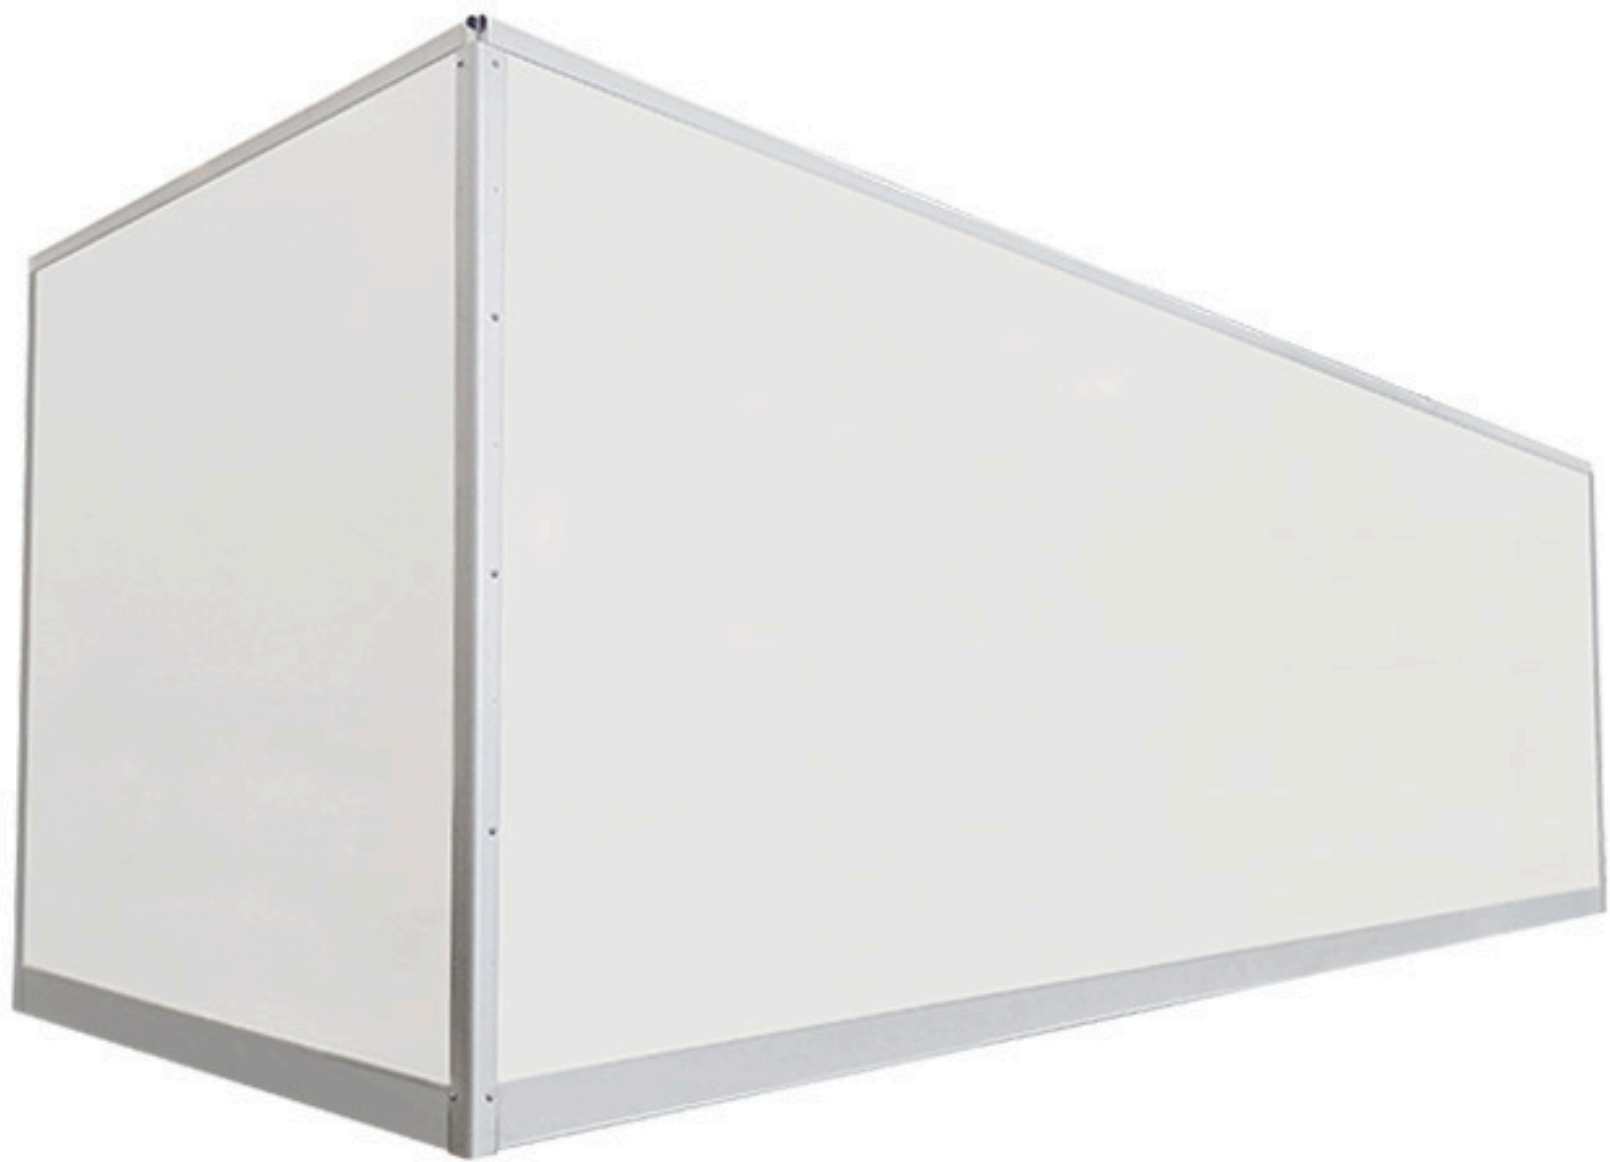

The 14-pallet refrigerated truck body is designed for large-scale cold chain logistics, offering a 12-ton load capacity and space for 14 standard pallets. Built with fiberglass polyurethane sandwich panels or aluminum, it ensures superior insulation, maintaining temperatures below 18 ° C. With customizable thickness (30 – 100 cm) and compatibility with box trucks & semi-trailers, it’ s ideal for long-haul and international transport. Features include E-track systems, multiple door options (rear, side, roll-up), and optional tail lifts, making it a versatile solution for frozen, fresh, and temperature-sensitive goods.

## Features:

- High insulation with low-thermal-conductivity foam
- Durable fiberglass/aluminum construction (30 – 100 cm thickness)
- Customizable doors (rear, side, roll-up) & optional tail lift
- Secure E-track & cargo bars for stability
- Sleek rivet-free design
- Universal compatibility with box trucks & semi-trailers
- Efficient 7.4m × 2.4m × 2.4m dimensions

## Advantages:

- Optimal cooling for perishable goods
- Heavy-duty 12-ton, 14-pallet capacity
- Custom solutions for unique needs
- Long-lasting corrosion-resistant build
- Global compliance for international transport
- Fuel-efficient lightweight design
- Enhanced safety with cargo locks & strip curtains
- Expert support for seamless integration

## Common Parameters

 Customer Satisfaction	 Quality Assurance	 Advanced Production Line	 Customization
Insisting on high quality products and servers, centered around customer experience	We strictly control every production process to bring reliable quality assurance to our customers	The world’ s top production line ensures product precision and efficiency	We provide 100% customization, making orders less difficult
