Slip-In Refrigerated Truck Bodies

Description:

Lightweight fiberglass composite truck bodies with XPS/PU foam insulation. Maintains -18 ° C to 7 ° C for perishable goods transport. Custom lengths 2-4.5m available. Easy installation on trucks/pickups. Superior thermal performance with 0.022 W/(m · K) conductivity. Impact-resistant construction (50 kJ/m²). Ideal for food, pharmaceutical delivery. Modular design for flexibility. Reduces energy costs by 30% versus traditional materials.

Features:

- -18 ° C to +7 ° C
- 40-100mm panels
- 1-3 ton capacity
- Multi-power options
- Impact resistant
- Certified safe

Advantages:

- 30% energy saving
- Lightweight
- Durable
- Easy install
- Custom sizes
- Food-safe

Common Parameters

			
Customer Satisfaction	Quality Assurance	Advanced Production Line	Customization
Insisting on high quality products and servers, centered around customer experience	We strictly control every production process to bring reliable quality assurance to our customers	The world’ s top production line ensures product precision and efficiency	We provide 100% customization, making orders less difficult
