标题

Description:

Composite Box enclosed trailers with side opening feature lightweight fiberglass composite panels and CKD/SKD kit delivery for easy assembly. Innovative side-opening doors (side-up folding, gull-wing, or display types) maximize loading efficiency, forklift access, and display potential. With excellent weather/corrosion resistance, superior sealing, and optional thermal insulation, they excel in mobile retail, pop-up stores, events, equipment transport, and professional applications.

Features:

- Fiberglass composite panels for lightweight and durable construction.
- Side-opening door systems with pneumatic or gull-wing mechanisms.
- Large side surface area ideal for branding and display.
- Weatherproof, corrosion-resistant, and excellent sealing performance.
- Highly customizable with CNC processing and optional insulation.

Advantages:

- Dramatically improves loading/unloading efficiency with wide side access, reducing operation time and enabling easy forklift use for heavy cargo.
- Provides generous, eye-catching side surfaces perfect for mobile retail, pop-up stores, brand promotion, and visual merchandising during events.
- Ensures long-term reliability through superior weather, corrosion, and UV resistance, combined with low maintenance fiberglass materials.
- Offers complete customization including dimensions, door types, thermal insulation, coatings, windows, and interior features to match any specific application need.

Common Parameters

			
Customer Satisfaction	Quality Assurance	Advanced Production Line	Customization
Insisting on high quality products and servers, centered around customer experience	We strictly control every production process to bring reliable quality assurance to our customers	The world’ s top production line ensures product precision and efficiency	We provide 100% customization, making orders less difficult
