标题

Description:

Composite Box offers premium Fiberglass Mobile Exhibition Trailers built with lightweight FRP foam sandwich panels and high-strength galvanized steel frames. Featuring CKD/SKD kits for easy assembly, hydraulic side extensions, and multi-function stage options. Lengths range from 3 – 12 meters with over 20 customizable configurations—perfect for brand promotions, events, exhibitions, and performances with quick setup and excellent durability.

Features:

- Lightweight FRP fiberglass foam sandwich panel construction.
- High-strength galvanized steel frame for enhanced structural integrity.
- Hydraulic side extension system expands display space significantly.
- Modular CKD/SKD kits enable fast, simple assembly.
- Corrosion-resistant and abrasion-proof fiberglass materials throughout.

Advantages:

- Enables rapid two-person installation in approximately 3 hours thanks to modular design, minimizing setup time and labor costs for events.
- Provides over 40% more usable interior space with hydraulic extensions, creating flexible display areas or meeting zones for larger audiences.
- Delivers exceptional durability and low maintenance through corrosion-resistant fiberglass, ensuring long service life and reduced long-term operational expenses.
- Offers full customization from 3 – 12 meters with 20+ kit options, allowing brands to create tailored, eye-catching mobile marketing solutions effortlessly.

Common Parameters

Customer Satisfaction	Quality Assurance	Advanced Production Line	Customization
