## Fiberglass Mobile Toilet Trailer

### Description:

Composite Box fiberglass mobile toilet trailers feature advanced FRP foam sandwich panels with 1.2mm FRP skins and high-density PU/XPS cores. Offering excellent thermal insulation, impact resistance, weather durability, and easy maintenance, these trailers support single- or dual-axle chassis in 4 – 11 meter sizes. Delivered as CKD/SKD kits for cost-effective global shipping and local assembly, ideal for events, construction sites, parks, and emergency use.

### Features:

- FRP foam sandwich panels with high-density insulation core.
- 1.2mm FRP skin for superior impact and UV resistance.
- Waterproof, slip-resistant, easy-to-clean flooring options.
- Modular CKD/SKD kit delivery for efficient logistics.
- Customizable single- or dual-axle galvanized chassis.

### Advantages:

- Provides exceptional thermal insulation and soundproofing, ensuring user comfort in extreme weather while maintaining hygienic, temperature-stable interior conditions.
- Delivers lightweight yet high-strength construction, reducing towing demands, improving fuel efficiency, and enabling easy maneuverability on various terrains.
- Features low-maintenance, corrosion-resistant surfaces that withstand acids, alkalis, and frequent use, significantly lowering long-term cleaning and repair costs.
- Offers full customization in size, layout, chassis type, and interior fittings, perfectly suiting diverse applications from festivals to emergency relief operations.

### Common Parameters

<b>Customer Satisfaction</b> Insisting on high quality products and servers, centered around customer experience	<b>Quality Assurance</b> We strictly control every production process to bring reliable quality assurance to our customers	<b>Advanced Production Line</b> The world's top production line ensures product precision and efficiency	<b>Customization</b> We provide 100% customization, making orders less difficult
