Fiberglass Roofing Sheets

Description:

Composite Box fiberglass roofing sheets provide durable, high-strength FRP panels with thicknesses from 1.5 – 3mm (single-layer) or 50 – 150mm (insulated composites). Featuring excellent UV resistance, light transmission up to 88%, Class A fire retardancy, and superior waterproofing/wind resistance. Customizable in corrugated profiles, colors, gelcoat finishes, and cores (XPS, PU, rock wool, honeycomb). Ideal for industrial warehouses, greenhouses, carports, and commercial daylighting roofs with 20+ year lifespan.

Features:

- High-translucency FRP with up to 88% light transmission.
- UV-stabilized gelcoat layer prevents yellowing for 20+ years.
- Class A flame-retardant and fire-resistant properties.
- Corrugated or flat profiles with wide 2.8m panels.
- Insulated core options: XPS, PU, rock wool, honeycomb.

Advantages:

- Combines superior daylighting and thermal insulation in one panel, eliminating separate sun panels or batt insulation while reducing glare and energy costs.
- Delivers exceptional durability and anti-aging performance with 20+ year service life, resisting UV, hail, typhoons, and severe weather with minimal maintenance.
- Achieves faster, cost-effective installation through lightweight design, maximum 2.8m width, long single panels, and reduced joints by up to 40%.
- Offers extensive customization in light transmission, colors, profiles, fire ratings, and functional coatings, perfectly suiting warehouses, greenhouses, residential, and industrial roofing needs.

Common Parameters

 <p>Customer Satisfaction</p> <p>Insisting on high quality products and services, centered around customer experience</p>	 <p>Quality Assurance</p> <p>We strictly control every production process to bring reliable quality assurance to our customers</p>	 <p>Advanced Production Line</p> <p>The world's top production line ensures product precision and efficiency</p>	 <p>Customization</p> <p>We provide 100% customization, making orders less difficult</p>
